Contents

NUMBER 1

1 Editorial

3 *K. J. Hsü*. Actualistic Catastrophism. Address of the retiring President of the International Association of Sedimentologists

11 *S. R. Taylor*. A stable isotope study of the Mercia Mudstones (Keuper Marl) and associated sulphate horizons in the English Midlands

33 *P. A. Ruiz-Ortiz*. A carbonate submarine fan in a fault-controlled basin of the Upper Jurassic, Betic Cordillera, southern Spain

49 *K. Pye and C. H. B. Sperling*. Experimental investigation of silt formation by static breakage processes: the effect of temperature, moisture and salt on quartz dune sand and granitic regolith

63 *R. A. Pickrill and J. Irwin*. Sedimentation in a deep glacier-fed lake—Lake Tekapo, New Zealand

77 *Brian R. Turner*. Braidplain deposition of the Upper Triassic Molteno Formation in the main Karoo (Gondwana) Basin, South Africa

91 *George Postma*. Water escape structures in the context of a depositional model of a mass flow dominated conglomeratic fan-delta (Abrioja Formation, Pliocene, Almeria Basin, SE Spain)

105 *A. H. F. Robertson and N. H. Woodcock*. Zabyat Formation, Semail Nappe, Oman: sedimentation on to an emplacing ophiolite

117 *Takeo Nakagawa*. Boundary effects on stream meandering and river morphology

129 *S. J. Culver, P. A. Bull, S. Campbell, R. A. Shakesby and W. B. Whalley*. Environmental discrimination based on quartz grain surface textures: a statistical investigation

137 *Andrew C. Brayshaw, Lynne E. Frostick and Ian Reid*. The hydrodynamics of particle clusters and sediment entrainment in coarse alluvial channels

145 Erratum

147 Forthcoming papers

149 Award of the IAS

153 Report of the General Secretary

154 Report of the Treasurer

155 Report of the Editors

NUMBER 2

159 *V. Paul Wright*. A rendzina from the Lower Carboniferous of South Wales

181 *Kevin T. Pickering*. Transitional submarine fan deposits from the late Precambrian Kongsfjord Formation submarine fan, NE Finnmark, N. Norway

201 *J. S. V. Reddering*. An inlet sequence produced by migration of a small microtidal inlet against longshore drift; the Keurbooms Inlet, South Africa

219 *P. G. Sly, R. L. Thomas and B. R. Pelletier.* Interpretation of moment measures derived from water-lain sediments

235 *William A. Wescott and Frank G. Ethridge.* Eocene fan delta-submarine deposition in the Wagwater Trough, east-central Jamaica

249 *Terry A. Nelsen.* Time- and method-dependent size distributions of fine-grained sediments

261 *Jonathan H. Fink and Ze'ev Reches.* Diagenetic density inversions and the deformation of shallow marine chert beds in Israel

273 *Djafar M. Aissaoui and Bruce H. Purser.* Nature and origins of internal sediments in Jurassic limestones of Burgundy (France) and Fnoud (Algeria)

285 *J. R. L. Allen.* Gravel overpassing on humpback bars supplied with mixed sediment: examples from the Lower Old Red Sandstone, southern Britain

295 *W. A. Chiou, L. E. Shephard, W. R. Bryant and M. P. Looney III.* A technique for preparing high water content clayey sediments for thin and ultrathin section study

SHORT COMMUNICATION

301 *Carol J. Pudsey.* Asymmetry of *Zoophycus* burrows as a way-up criterion

305 Book reviews

309 Forthcoming papers

NUMBER 3

311 *Lars B. Clemmensen and Kjell Abrahamsen.* Aeolian stratification and facies association in desert sediments, Arran basin (Permian), Scotland

341 *R. J. Steel and D. B. Thompson.* Structures and textures in Triassic braided stream conglomerates ('Bunter' Pebble Beds) in the Sherwood Sandstone Group, North Staffordshire, England

369 *M. E. Mathisen and C. F. Vondra.* The fluvial and pyroclastic deposits of the Cagayan Basin, Northern Luzon, Philippines—an example of non-marine volcaniclastic sedimentation in an interarc basin

393 *Nicholas Eyles, Carolyn H. Eyles and Andrew D. Miall.* Lithofacies types and vertical profile models; an alternative approach to the description and environmental interpretation of glacial diamict and diamictite sequences

411 *David Soudry and Yves Champetier.* Microbial processes in the Negev phosphorites (southern Israel)

425 *Tessa DE Mowbray.* The genesis of lateral accretion deposits in recent intertidal mudflat channels, Solway Firth, Scotland

437 *A. I. Rees.* Experiments on the production of transverse grain alignment in a sheared dispersion

449 *J. B. Keene.* Chalcedonic quartz and occurrence of quartzine (length-slow chalcedony) in pelagic sediments

455 Book reviews

459 Forthcoming papers

NUMBER 4

461 *Barbara J. Lees*. The relationship of sediment transport rates and paths to sandbanks in a tidally dominated area off the coast of East Anglia, U.K.

485 *M. R. Leeder*. On the dynamics of sediment suspension by residual Reynolds stresses—confirmation of Bagnold's theory

493 *Grant D. Mossop and Peter D. Flach*. Deep channel sedimentation in the Lower Cretaceous McMurray Formation, Athabasca Oil Sands, Alberta

511 *J. N. J. Visser*. Submarine debris flow deposits from the Upper Carboniferous Dwyka Tillite Formation in the Kalahari Basin, South Africa

525 *A. G. Plint*. Liquefaction, fluidization and erosional structures associated with bituminous sands of the Bracklesham Formation (Middle Eocene) of Dorset, England

537 *John Dixon and V. Paul Wright*. Burial diagenesis and crystal diminution. The origin of crystal diminution in some limestones from South Wales

547 *J. Kenneth Torrance*. Towards a general model of quick clay development

557 *B. B. Willetts and M. A. Rice*. Practical representation of characteristic grain shape of sands: a comparison of methods

567 *Haim Tsoar*. Dynamic processes acting on a longitudinal (seif) sand dune

579 *Ian J. Fairchild*. Chemical controls of cathodoluminescence of natural dolomites and calcites: new data and review

585 Book reviews

597 Forthcoming papers

NUMBER 5

599 *John S. Bridge and John A. Diemer*. Quantitative interpretation of an evolving ancient river system

625 *A. G. Plint*. Facies, environments and sedimentary cycles in the Middle Eocene, Bracklesham Formation of the Hampshire Basin: evidence for global sea-level changes?

655 *J. D. Orford and W. B. Whalley*. The use of the fractal dimension to quantify the morphology of irregular-shaped particles

669 *Brian Willetts*. Transport by wind of granular materials of different grain shapes and densities

681 *David J. W. Piper and William R. Normark*. Turbidite depositional patterns and flow characteristics, Navy Submarine Fan, California Borderland

695 *David C. Twichell*. Bedform distribution and inferred sand transport on Georges Bank, United States Atlantic Continental Shelf

711 *J. Parnell*. Skeletal halites from the Jurassic of Massachusetts, and their significance

717 *Amihai Sneh and Tuvia Weissbrod*. Size–frequency distribution of longitudinal dune rippled flank sands compared to that of slipface sands of various dune types

727 *Martin Kirk*. Bar developments in a fluvial sandstone (Westphalian 'A'), Scotland

743 Book reviews

749 Forthcoming papers

NUMBER 6

751 *Lionel Carter and Charles T. Schaffer.* Interaction of the Western Boundary Undercurrent with the continental margin off Newfoundland

769 *B. J. Ireland, C. D. Curtis and J. A. Whiteman.* Compositional variation within some glauconites and illites and implications for their stability and origins

787 *Eric R. Matthews.* Measurements of beach pebble attrition in Palliser Bay, southern North Island, New Zealand

801 *Joseph P. Smoot.* Depositional subenvironments in an arid closed basin; the Wilkins Peak Member of the Green River Formation (Eocene), Wyoming, U.S.A.

829 *R. Douglas Elmore.* Precambrian non-marine stromatolites in alluvial fan deposits, the Copper Harbor Conglomerate, upper Michigan

843 *Loretta Ann Williams.* Deposition of the Bear Gulch Limestone: a Carboniferous Plattenkalk from central Montana

861 *Gordon Walkden and Jerry Davies.* Polyphase erosion of subaerial omission surfaces in the Late Dinantian of Anglesey, North Wales

879 *Philip A. Sandberg and John D. Hudson.* Aragonite relic preservation in Jurassic calcite-replaced bivalves

893 Erratum

895 Book reviews

901 Forthcoming papers
